## Outline

# The KOSAIDO Group's Three Core Businesses

KOSAIDO Group consolidates the strengths of the KOSAIDO Group to provide comprehensive support for 100-year lives across three business domains: the Ending-related Business, Information Solutions Business, and HR Services Business. We will take on the challenge of creating innovative services to realize better environments, enrich lives, and thus achieve a society full of hope in the future.

FY2022 Consolidated Net Sales Contribution by Segment Total: 35.361 billion yen

Ending-related Business:	Information Solutions Business:	HR Services Business:
9.38 billion yen (26.5%)	19.12 billion yen (54.1%)	6.85 billion yen (19.4%)

FY2022 Consolidated Operating Profit Contribution by Segment Total: 4.442 billion yen (Sum of profit from each segment)

Ending-related Business: 3.23 billion yen (72.8%)	Information Solutions Business: 0.72 billion yen (16.4%)	•	

HR Services Business: 0.48 billion yen (10.8%)

#### Ending-related Business Support to enrich the last stage of life.

In this era of the 100-year lifespan, we want to help more people enjoy an enriched end to their lives. We seek to provide funerals that match the wishes of bereaved families and respond soundly to increasingly diverse needs and future challenges, offering forums appropriate to adorn the beautiful completion of life.

#### Main services

• Operating crematoriums and • Planning and conducting funerals providing funeral halls • Ending-related services

#### **Crematorium operation**

• Operating crematoriums and providing funeral halls Tokyohakuzen, a member of the KOSAIDO Group, operates six comprehensive crematoriums and funeral venues and one facility for the storage of remains in Tokyo. We contribute to the evolution and development of crematoriums and funeral venues with barrier-free facilities and the introduction of the latest safe and clean cremation systems. Aspiring to offer forums appropriate to adorn the beautiful completion of life. we will continue to provide safe and secure cremation operation and funeral halls to enable bereaved families and undertakers to conduct funerals with a feeling of security.

#### Funeral services

• Planning and conducting funerals

We provide services from funeral planning to cremation, to enable bereaved families to spend the last days together with the deceased as they wish. We offer funeral plans to match the desires of bereaved families, including options such as ordinary funerals, one-day funerals, and family funerals. In this era of the 100-year lifespan. we welcome inquiries before death, providing high-quality services to allow people to eniov a better end to life.

#### Services associated with funerals and cremation Ending-related services

We provide a range of related services to enable all those who use our crematoriums and funeral venues to gain a sense of value. As a forum for service-providers to present information and for general customers to gather information, we offer customers various ending-related services, from Buddhist alters and graves to inheritance, estate liquidation, and memorial services. We have also established an environment that enables us to respond to urgent requests for meals, thank-you gifts, flowers, and other items

#### Information Solutions Business Designing optimal communication through multifaceted solutions.

Today, with the increasing diversity of communication methods, it is crucial to accurately ascertain customer needs and select the optimal means of communication. We offer more effective communication through a combination of various methods such as printing digitalization, D2C business support, and BPO.

#### Main services

- Offset printing (publishing and commercial) Newspaper printing Digital printing
- Package printing
- IT and digital solutions

 Campaign solutions • D2C business support Digital promotion support BPO services Exhibition business

#### Information and communications

#### Printing solutions

We offer a wide range of printing services such as the printing of books, newspapers and other published matter, public relations and sales promotion materials, film and paper packaging. We respond to a broad range of needs by providing digital printing, unique high-resolution printing, and specialized printing solutions such as black light

#### • IT and digital solutions

We apply the information processing technologies developed through our printing business to provide optimal information processing and transmission suited to a range of different devices. We offer one-stop services from the design, development, and operation of databases that form the foundation for information accumulation and utilization, to BPO services such as data entry.

#### • Original IT services

We also offer IT services unconstrained by the limits of printing, such as the membership management service "funUP!" which enables the integrated management of member information for online seminars and e-commerce, and the FAQ and response history management system "InTact" for local government call

#### **BPO (Business Process Outsourcing)**

#### BPO services

We offer outsourcing services to meet customer needs, such as operational and efficiency improvements, continuing human resource acquisition, and the focus

#### HR Services Business

High-level human resources strategies are crucial to secure talented personnel and develop their capabilities. We address clients' recruiting issues through total personnel solutions to meet needs ranging from job advertisements, temporary staffing, recruitment, education and training in Japan, to personnel support for companies expanding overseas.

#### Main services

 Job advertising media Job advertising media agency services Environmental information magazine publication Free newspaper rack

 Temporary staffing Recruitment Human resources development. education, and training • RPO services Overseas personnel services HR technology services

#### HR technology services

#### TalentClip

distribution

Our all-in-one recruitment management system digitalizes recruitment operations, accelerating direct recruiting, from more efficient recruiting work to the establishment of personnel databases, and solving various issues related to recruitment operations by recruiting representatives.

#### TalentAsia

We reduce outsourcing expenses and lower the hurdles to supporting foreigners with "Specified Skilled Worker" status with specified skills, reducing the financial and operational burden on companies that recruit them, and solving the difficult issue of personnel shortages.

#### Media

#### Job advertising media

The job advertising media "Workin" boasts a track record spanning over four decades in the Tohoku and Hokuriku regions, and appeals to readers with a range of different employment styles. We also provide other job advertising media with strong local ties, which achieve the optimal matching of companies and applicants

of resources on core businesses. By outsourcing indirect operations and customer service, our customers can achieve a reduction in operational burden and devote themselves to high-priority businesses.

#### Marketing & products

#### • Campaign solutions

Leveraging the experience we have gained through BPO in providing contact point services (customer service, data utilization, shipping tasks) for our clients' customers to the whole planning enables us to achieve high-quality sales promotions. We are able to design operations that intermingle online and offline promotions, providing one-stop solutions to maximize effectiveness.

#### D2C business support

We not only construct e-commerce systems and act as shipping agents but also provide one-to-one communication services with fully customizable functions, from attracting customers to e-commerce sites to ordering and shipment, to enrich the experience of customer communication with a focus on brand-customer contact points. We provide total support along the value chain from promotion and e-commerce site operation to shipping agency services.

#### Digital promotion support

We offer targeting and measures to suit each stage of promotion. We provide problem-solving support through a range of methods such as digital advertising, social media utilization, design and operation of digital sales promotion campaigns. and video marketing. We facilitate expanded recognition and enhanced purchasing desire through planning and design to meet clients' challenges and projects, and the establishment of an effective PDCA cycle.

#### Integrating people and technology to solve local employment and education issues.

#### Job advertising media agency services

We handle over 2,000 job advertising media across Japan, providing optimal support to meet diverse recruitment needs based on the experience and knowhow acquired from over 40 years in the job advertising media business.

#### • Environmental information magazine publication

Amid rising public interest in environmental issues, we publish the "Eco-family Newspaper," brimming with useful lifestyle information such as ecology, dietary education, safety and security. The newspaper is distributed to elementary school children in Miyagi, Toyama, Yamagata, and elsewhere

#### Free newspaper rack distribution

We provide backup for corporate promotions with strong local ties by setting up integrated free newspaper racks and securing locations for racks and along the routes used regularly by target customers, as well as providing complete services such as checking the status of distribution and the numbers of newspapers taken home, and the provision of information to clients

#### Personnel recruitment and education services

#### Temporary staffing

We provide temporary staffing services that create new encounters and contribute to personal and corporate growth. From our bases in the Miyagi, Nijgata and Saitama area, we facilitate staffing for diverse occupations such as clerical, logistics, and manufacturing work.

#### Recruitment

With a streamlined response where a single consultant serves both the company and its job applicants, we achieve high-quality personnel matching. Our services achieve a high level of satisfaction by accurately grasping the demands of both employers and applicants

#### Human resources development, education, and training

We plan and provide human resources education and training programs, supporting all aspects from personnel retention to training through an abundant range of training offerings with the aim of strengthening companies into "organizations that continue to achieve solid results.

#### RPO (Recruitment Process Outsourcing)

Dedicated operators handle duties related to recruitment such as administrative work and contacting applicants from the high-security environment in our own office building (outsourcing center). We can respond to a diverse range of requests and contribute to enhancing recruiting capabilities and reducing recruitment costs.

#### Overseas personnel services

We provide personnel services to Japanese companies in Vietnam. We also promote the popularization of Japanese language in Vietnam and provide support for study abroad. In Japan, we provide comprehensive support, from recruitment and employment to employee retention and development, for personnel with "Specified Skilled Worker" status who are proficient in Japanese. Our TalentAsia system (cloudbased system) resolves even complicated registration support tasks.

## Message

Message from Management

We will pursue the renewal of "kosai" with a "progressive and enterprising spirit," aspiring to be the number-one company in the senior and end-of-life businesses

> Hiroshi Kurosawa President and Representative Director

#### Leveraging our founding DNA to actively pioneer new fields

At the KOSAIDO Group, we espouse a corporate philosophy of "kosai" (making a broad contribution to society). Throughout our history, we have developed a wide range of services, unconstrained by convention, embracing a "progressive and enterprising spirit" to actively engage in new endeavors. This spirit is in the Group's DNA, passed down from the time of its founding.

The KOSAIDO Group was founded in 1949 as a printing company with a management philosophy of social contribution. The Group grew as it strived to distribute information through printed media amid the postwar period of rapid economic growth. Always focused on the changing needs of the times, the Group has aggressively pioneered new fields to provide the products and services demanded by customers.

As a result, our business now spans three main areas: the Information Solutions Business, which has expanded beyond printing to provide integrated services combining IT, BPO, D2C support and other services; the HR Services Business, which provides employment infrastructure and total personnel solutions pivoting on HR technologies to support local communities facing employment issues such as declining workforces, aging populations, and decreasing employment opportunities; and the Endingrelated Business, which features integrated cremation and funeral venues boasting firm customer trust and achievements cultivated over a century-long history.

The Group is currently pursuing the Mission (What we hope to achieve) to "Further enrich 100-year lives," aiming to achieve the Vision (Our vision for the future) to be "a company that creates myriad 'thank yous.'"

We believe that the Value (The value we provide to contribute broadly to society) that the Group can create to achieve this is to "provide innovative services overflowing with gratitude through individual challenges and strong organizational connections." To steadily provide this Value, we have established the Action Guideline "begin by taking the initiative!" and four goals (see "Philosophy" on page 1 for details).

With the social environment undergoing significant changes such as declining birthrates, an aging population, and the COVID-19 pandemic, and the emergence of new kinds of lifestyles and value perceptions, we have sought to discover what products and services would experience increasing demand among customers. We have arrived at the conclusion that, of our three main businesses, we should focus especially on the Ending-related Business to achieve our Mission and Vision in the era to come.

## Aspiring to be the number-one company in the senior and end-of-life businesses

At present, we have our sights on being the "numberone company in the senior and end-of-life businesses," pivoting on the Group's core subsidiary Tokyohakuzen. For the past century, Tokyohakuzen has supported an indispensable infrastructure for the residents of Tokyo, operating six comprehensive crematoriums and funeral venues (crematoriums that also function as venues for funeral ceremonies) in the city. "Death" is a sad event that everyone must face, and we are always in attendance when the residents of Tokyo send their loved ones on their final journey. We have performed the role of a "reception," so to speak, between funerals and the bereaved.

Our strategy to be the "number-one company in the senior and end-of-life businesses" is aimed at expanding our role as a "reception," previously limited to

## We will continue to pursue the renewal of "kosai" with a "progressive and enterprising spirit"

Meanwhile, since my appointment as President and Representative Director in 2021, I have promoted a range of reforms with the aim of enhancing corporate value. Specific initiatives include the completion of financial restructuring through measures such as the liquidation of unprofitable businesses; the maximization of shareholder returns (dividends); a focus on the Ending-related Business, a growth field; the strengthening of corporate governance and business management through the renewal of personnel and the reestablishment of internal company regulations: and the maximization of cash flow through thorough tax management. These measures have proven successful, and our new structure forms a foundation that will allow us to achieve stable and continuing earnings growth. Based on this structure, we announced the Medium-term Management Plan 2.0 in May 2022.

We have also designated four material challenges (key issues) for the Group, to realize its corporate philosophy by contributing to the Sustainable Development Goals (SDGs) set forth by the United Nations. These material challenges are (1) Supporting Broadly (value creation for sustainable economic activities), (2) Living Together (the development of fair and diverse local communities), (3) Protecting the Future (passing down the beautiful cremations, to attend bereaved families in their time of sadness as a more thorough and meticulous "reception." As an example of a new service that we have already launched, our inheritance consultation service addresses an issue that bereaved families face at the same time as their sadness.

We have also worked to appropriately maintain cremation furnaces to meet the burden of the prodigious number of cremations in Tokyo, due to the heavy concentration of the Japanese population in the city. We have accumulated expertise in areas such as design from rebuilding cremation furnaces, and we plan to leverage our achievements and technological strength to expand horizontally into other prefectures, with overseas sales in our sights in the future.

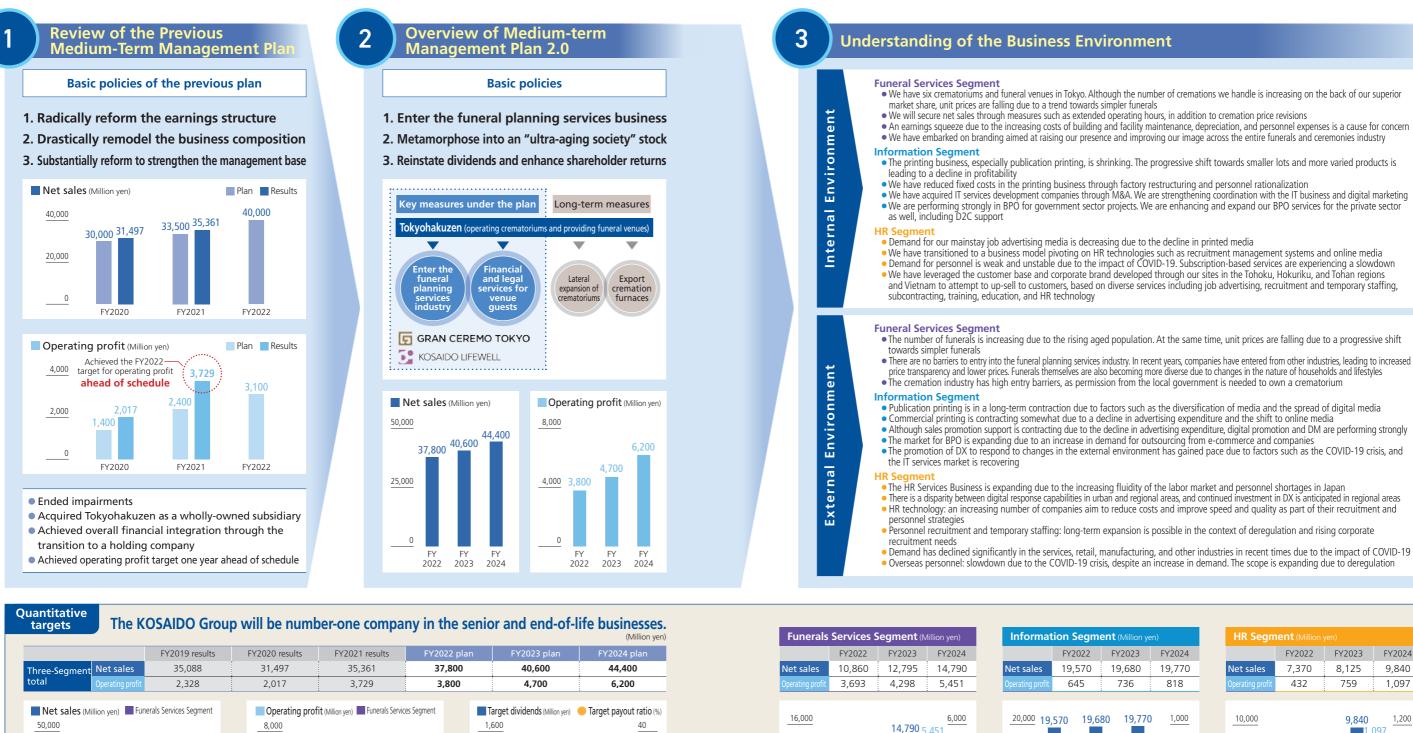

Earth to future generations through the reduction in environmental burden), and (4) Connecting with Smiles (sound corporate management with transparency and dialogue).

We have established an internal Sustainability Promotion Office and will implement a PDCA cycle for the planning, execution, verification, and improvement of our sustainability actions as we pursue these four material challenges. We also hold Sustainability Promoter Meetings to strengthen coordination with relevant departments and Group companies, and we are engaging in specific activities to achieve these material challenges. To create a future with hope through these activities, we aim to work with our employees and other stakeholders to achieve a resolution to social issues.

In this way, we will continue our efforts in pursuit of the renewal of "*kosai*" with a "progressive and enterprising spirit," through initiatives such as the expansion of the Ending-related Business and contribution to achieving the SDGs. I look forward to your continued warm support and guidance for KOSAIDO Holdings as we strive to be a corporate group that is needed by society and fulfill our social responsibility.

# Medium-term Management Plan 2.0 (2022-2024)

At the KOSAIDO Group, we have formulated the Medium-term Management Plan 2.0 (2022-2024) to further expand our earnings base and achieve stable growth, with the aim of advancing to a new growth stage. With the goal of being the "number-one company in the senior and end-of-life business domains." we will steadily implement this plan to create new value in various situations throughout 100-year lives and realize a future filled with hope.

- An earnings squeeze due to the increasing costs of building and facility maintenance, depreciation, and personnel expenses is a cause for concern
- We have acquired IT services development companies through M&A. We are strengthening coordination with the IT business and digital marketing • We are performing strongly in BPO for government sector projects. We are enhancing and expand our BPO services for the private sector
- We have leveraged the customer base and corporate brand developed through our sites in the Tohoku, Hokuriku, and Tohan regions. and Vietnam to attempt to up-sell to customers, based on diverse services including job advertising, recruitment and temporary staffing,
- The number of funerals is increasing due to the rising aged population. At the same time, unit prices are falling due to a progressive shift
- There are no barriers to entry into the funeral planning services industry. In recent years, companies have entered from other industries, leading to increased
  price transparency and lower prices. Funerals themselves are also becoming more diverse due to changes in the nature of households and lifestyles
- Although sales promotion support is contracting due to the decline in advertising expenditure, digital promotion and DM are performing strongly • The promotion of DX to respond to changes in the external environment has gained pace due to factors such as the COVID-19 crisis, and
- There is a disparity between digital response capabilities in urban and regional areas, and continued investment in DX is anticipated in regional areas • HR technology: an increasing number of companies aim to reduce costs and improve speed and quality as part of their recruitment and
- Overseas personnel: slowdown due to the COVID-19 crisis, despite an increase in demand. The scope is expanding due to deregulation

## ESG

## **Environment** [Protecting the Future]

# Information Disclosure Based on the TCFD Recommendations

In 2022, in addition to endorsing the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD), we published the KOSAIDO Group's SDGs Declaration. The Declaration asserts sustainability management to address the increase in greenhouse gas (GHG) emissions and extreme weather conditions due to global warming, which have become crucial issues for the global society. We have designated material challenges on an environmental theme, and we will aim to further mitigate risks to the environment through cooperation with our partners.

We have also commenced information disclosure in line with the TCFD recommendations. Building on feedback from our stakeholders, we will implement a continuing PDCA cycle to achieve stronger management strategy related to climate change.

## Governance

In January 2022, we established the Sustainability Promotion Committee to discuss climate-related risks and opportunities. The committee, chaired by Makoto Tokiwa, Senior Executive Officer of KOSAIDO Holdings, meets biannually to manage progress across the whole Group, primarily through Sustainability Promoter Meetings. The committee reports to the Board of Directors, and supervises measures for emissions reduction.

strongly promoted throughout supply chains, that

they will become crucial factors for business, and that

businesses failing to consider the environment are likely

We will continue to enhance the precision of these

scenarios through the analysis of changes in the external

environment, and pursue the integration of resilient

management strategies for an uncertain future.

(See page 13 for a diagram of the sustainability promotion structure)

to be left behind.

# Strategies

At the Group, we have analyzed the key climate-related risks and opportunities for each business and carried out an impact assessment of the economic and social value of future business scenarios through the Sustainability Services Development Group at Sustainability Promoter Meetings, under the supervision of the Sustainability Promotion Committee.

Based on this assessment, we anticipate that GHG emissions reductions and carbon neutrality will be

#### Basic scenarios for impact assessment

Shift to a decarbonized society	Prevention of air, water, and soil pollution and the shift to reusing resources
<ol> <li>The Japanese government's declaration that Japan will be carbon neutral by 2050 has led to the revision of materials and production processes in supply chains.</li> <li>Companies are investing ever more aggressively in CO<sub>2</sub> reductions.</li> <li>Businesses that fail to consider the environment throughout supply chains are likely to be left behind.</li> </ol>	<ol> <li>Improve water quality by 2030 through the decreasing of pollution, the elimination of waste dumping, the minimization of hazardous chemical substance discharge, halving the proportion of untreated waste water, increasing water recycling, and a substantial increase in the safe reuse of water on a global scale.</li> <li>Eliminate industrial pollution by constructing cyclical supply chains together with trading partners, including wastewater (liquid waste) treatment, solid waste treatment, etc. in addition to non-VOC materials.</li> </ol>

# Risk Analysis

We have analyzed the impact of climate change on the Group in terms of climate-related risks and climate-related opportunities. For risks, we have identified "transition risks" associated with the shift to a low-carbon society and "physical risks" due to climate change.

In addition, we have assessed and analyzed these risks and opportunities by classifying each into "policy, legal, and regulatory risks," "technological risks," "market risks," "reputational risks," "acute risks," and "chronic risks."

We will proceed to formulate resilient business strategies to ascertain risks and generate opportunities through scenario analysis based on two selected scenarios, as well as reviewing this analysis in the future.

	Scenarios	Selected scenarios			Risks
	[1.5°C] Climate policies are introduced	SSP*1 1-1.9			Stronger policies such as the introduction of carbon taxes to suppress GHG emissions
	and the rise in temperatures	IPCC*2	Transition	Technological risks	Introduction of equipment using low-carbon technologies
	in the 21st century (compared to pre-industrialization) is kept within 1.5°C through sustainable	"Special Report on Global Warming of 1.5°C"	risks	Market risks	Exclusion from supply chains
	development				Opinions on decarbonization from shareholders and customers

socioeconomic perspectives. \*3 RCP: Representative Concentration Pathways, scenarios developed using the levels at which GHG concentration will stabilize in the future, and representative pathways to these levels

# Metrics and Targets

We aim to protect the future, passing down the beautiful Earth to future generations through the reduction in environmental burden, based on the Group's SDGs Declaration. We measure the Scope 1, 2, and 3 emissions of the entire Group and formulate strategies based on these results, to maximize our opportunities and minimize risks from climate change.

Metrics: GHG Protocol Scope 1, Scope 2, and Scope 3 emissions, measured with reference to the Ministry of the Environment "Basic Guidelines on Accounting for Greenhouse Gas

- Emissions Throughout the Supply Chain, Ver. 2.3" Scope: All of the Group (KOSAIDO Holdings and consolidated
- subsidiaries) in Japan
- **Precision:** Categories with high emissions volumes are measured, in a way that enables the measurement of reduction initiatives in these categories

#### Scope 1 + 2 emissions (FY2020)

Emissions type	Scope 1	Scope 2	Scope 3
FY2020	8,693(t-CO <sub>2</sub> )	8,358(t-CO <sub>2</sub> )	17,050(t-CO <sub>2</sub> )

# Reduction Targets

We have established medium-term targets for 2030 regarding GHG emissions (Scope 1 and Scope 2) associated with business activities at our own locations and we are engaging in activities to reduce these emissions. For Scope 3 emissions, we are surveying the states of GHG emissions management by our suppliers and purchasers.

#### Scope 3 emissions (FY2020)

We monitored eight categories related to the Group's business activities.

Category	Type of waste	t-CO <sub>2</sub>
1	Purchased products and services	66,298.48
4	Transport and delivery (upstream)	*
5	Business waste	169.48
6	Business travel	67.89
7	Employee commuting	415.49
9	Transport and delivery (downstream)	*
13	Leased assets (downstream)	609.44
15	Investment	1,844.23
Total		69,405.00

\*Emissions for categories 4 and 9 have been calculated as category 1 for FY2020 as we are in the process of completing a precise survey of past figures.

Item	Scope 1+2 reduction targets	Scope 3 reduction targets				
2050 target	Carbon neutrality	Carbon neutrality				
2030 target	Reduce CO <sub>2</sub> emissions by	To be formulated based on the status of suppliers and purchases				
Emissions factor	Ministry of the Environment "Measurement Methods and Emissions Factors under the Measurement, Reporting, and Publication System"					
Reference year	2020					

# Society [Living Together]

# **Developing Fair and Diverse Local Communities**

# Sustainability Promotion Structure

#### **Basic policies and promotion structure**

At the KOSAIDO Group, we have established the Sustainability Promotion Committee to confirm management approval of our basic policies and the progress of our "sustainability actions." The committee reports this information to the Management Meeting, and it is utilized in determining management policy.

We have also established the Sustainability Promotion Office within the Strategic Planning Department, and implemented a PDCA cycle for the planning, execution, verification, and improvement of sustainability actions. Sustainability Promoter Meetings are held regularly to strengthen coordination with relevant departments and Group companies, and we are integrating these activities into our business strategies and promoting them to meet the Group's material challenges.

#### Basic views on respecting human rights

As a company that develops businesses that contribute broadly to society, we recognize the importance of respect for human rights. The KOSAIDO Group Code of Conduct stipulates that we respect basic human rights, have mutual respect for diverse personnel with various value perceptions, respect each other as we make the most of our various skills and characteristics, and have no discrimination at all. We also respect the various international codes of conduct, and endeavor to engage in business activities with consideration for the human rights of employees, trading partners, customers, local communities, and others.

We ensure that each of our employees is thoroughly familiar with our views on human rights, and we promptly and appropriately respond to any issues through internal audits, internal whistleblower hotlines and the like.

#### Initiatives to promote female participation and career advancement

At the KOSAIDO Group, we believe that the creation of workplace environments where diverse personnel can make the most of their strengths is linked to our ability to achieve sustainable growth. We emphasize ensuring diversity in the promotion and selection of core personnel. At present, experienced hires account for a high proportion of employees in management positions, at 68%, and we will continue to promote active mid-career recruitment according to our needs.

Women account for 7% of employees in management positions at KOSAIDO Holdings, and their average number of years of service is lower than the national average, at only half of that of male employees. We recognize these as issues, and we have formulated an action plan based on the Act on the Promotion of Female Participation and Career Advancement in the Workplace (Women's Advancement Promotion Law) and established quantitative targets. To achieve these targets by March 2024, we are endeavoring to enhance workplace environments

**Board of Directors** Management Meeting Sustainability Promotion Committee (Chair and deputy chair: Management Strategy Headquarters) Sustainability Promotion Office (Established within the Strategic Planning Department) Sustainability Promoter Meetings

and education and development schemes, including the implementation of career interviews and training systems.

- (1) Raise the proportion of management positions occupied by women to 10%
- (2) Raise women's average number of years of service to 70% of their male counterparts

#### Systems for mental and physical health management

We regard our obligation to consider the safety of our employees to be of the utmost importance as a company, and we have formulated health promotion plans for employees' mental and physical health. We are engaged in measures such as improving workplace environments, enhancing employee performance, safety and health, aiming to create safe and comfortable workplaces.

#### Systems for mental and physical health management

# Sound Corporate Management with Transparency and Dialogue

#### **Basic views**

We engage in business with a spirit of "kosai" (which means "making a broad contribution to society"). We aim to maximize shareholder value, sustainably enhance corporate value, and be a company that is trusted by society.

To this end, we will not only improve profitability but also uphold the rights of shareholders, practice efficient,

## **Overview of the Corporate Governance Framework**

#### Board of Directors

As a company with a Board of Corporate Auditors, our management structure is built to ensure accurate decisionmaking by Directors and swift business execution, while also enabling proper supervision and monitoring. We strive to enhance corporate governance and improve the fairness and transparency of management based on our basic views. We have also established the Nominating and the Compensation Committee as non-statutory committee composed mainly of Independent Outside Directors and Independent Outside Corporate Auditors. The committee deliberates on Directors' compensation and the decision policy thereof, as well as proposed Director candidates, and reports back to the Board of Directors.

The Board of Directors meetings are attended by two Executive Directors, one Part-time Director, five Outside Directors, and Corporate Auditors. In addition to regular monthly meetings, the Board of Directors holds extraordinary meetings as necessary. It makes decisions on important matters of business strategy such as management targets

fair and highly transparent corporate management, and thoroughly implement compliance. Moreover, we will fulfill the environmental, social, and governance aspects of our corporate social responsibility (CSR) and engage in initiatives that address social issues to achieve sustainable corporate and social growth, thus enhancing

our corporate governance.

and business strategy and matters stipulated by law or regulation, and supervises the status of business execution.

#### **Board of Corporate Auditors**

One Full-time Corporate Auditor and two Outside Corporate Auditors have been elected, ensuring the objectivity and neutrality of the management supervisory function. The Corporate Auditors audit the status of our governance approach and operation. Moreover, the two Outside Corporate Auditors have been designated as independent officers. We understand that the role of Outside Directors and Outside Corporate Auditors is to maintain a neutral and fair standpoint and, as independent agents entrusted by shareholders, to guarantee that the neutrality and objectivity of management is ensured.

Outside Directors and Outside Corporate Auditors provide timely and appropriate opinions, advice and recommendations regarding management from an objective standpoint, and we endeavor to maintain and ensure swift and appropriate decision-making.

# Consolidated Financial Statements (Fiscal year ended March 31, 2022)

#### Total amounts of compensation for Directors and Corporate Auditors

Office	Total amount of	Amount	of compensation by type	(million yen)	Number of eligible officers
Office	compensation (million yen)	Basic compensation	Performance-linked compensation	Non-monetary compensation	Number of engible officers
Director	49.2	47.1	-	2.1	3
Outside Director	22.5	22.5	-	-	6
Corporate Auditor	10.2	10.2	-	-	1
Outside Corporate Auditor	9.6	9.6	-	-	2

Notes: 1 No performance-linked compensation is paid to Directors

2. Restricted stock compensation is paid as non-monetary compensation to Executive Directors Mr. Hiroshi Kurosawa and Mr. Chihiro Negishi.

#### Evaluation of the effectiveness of the Board of Directors

We carry out self-evaluation and analysis of the effectiveness of the Board of Directors with the aim of improving the functions of the Board and enhancing corporate value. Advised by an external agency, we implemented an anonymous, direct-response questionnaire survey of the Directors and Corporate Auditors in March 2021. The Board of Directors analyzed, discussed, and evaluated the results of the survey in June 2021, with reference to a report from the external agency summarizing the results.

The questionnaire responses indicated a generally positive assessment, and we believe that the overall effectiveness of the Board of Directors is assured. The responses included opinions on issues such as ensuring diversity in the composition of the Board of Directors, ensuring sufficient time to deliberate management policies and important agenda items, more comprehensive feedback of business information, strengthening internal

controls, and strengthening coordination between the Board of Directors and the internal audit division. Issues were shared to further enhance the function of the Board of Directors and stimulate more vigorous debate. The Board of Directors will strive to respond swiftly to issues after adequate consideration and continue to implement initiatives to enhance its function based on this effectiveness evaluation.

#### Internal control system

At the KOSAIDO Group, we implement reviews as appropriate to ensure the appropriate establishment and operation of management meeting bodies, internal regulations, etc., based on our "Basic Policy on Audits of the Internal Control System." In addition, we also prepare internal control reports as necessary regarding any serious risks or responses related to ensuring the reliability of financial reporting or the establishment and operation of implementation structures.

# **Compliance and Risk Management**

#### Compliance promotion framework

We thoroughly adhere to the Action Guideline set forth in our basic philosophy. We have established compliance rules to prevent any illegal acts or other compliance infringements, we clearly state our standards of conduct, and implement a range of education and training measures.

Moreover, since April 2006, we have established rules on whistleblower protection, introduced a whistleblower system and appointed persons responsible. We have taken steps to enable us to respond appropriately if any legal or regulatory violation or other dishonest act is discovered.

#### Operation of the internal whistleblower system

At the KOSAIDO Group, we prohibit any legal or regulatory violations, any acts that direct, order, or tolerate such violations, any acts that endanger the safety or health of counterparties, trading partners, or others, any acts associated with antisocial forces, and any acts in violation of internal rules, etc., under our compliance rules. We have also established employment management measures to prevent harassment and address problems arising from harassment under our harassment rules.

We have set up a compliance hotline and harassment consulting point where employees can report internally on compliance violations and potential risks.

#### Risk management system

At the KOSAIDO Group, we have established the Risk Management Committee, chaired by the President and Representative Director, to ensure stable corporate development and enhance corporate value. The committee appropriately manages the various potential risks that may negatively impact business management operations, Directors and Corporate Auditors, or Group companies, and promotes countermeasures.

The Risk Management Committee pursues its purpose of establishing the necessary matters related to risk management, preventing the emergence of risks and minimizing any damage to the company.
